

Hay Net 101

AT THE OKLAHOMA CITY ZOO

Supplies needed:

- 300ft of rope
- Metal O-ring (4 inch inside diameter)
- Barrel to drape net over (optional)

Begin by cutting fifteen 20ft lengths of rope

Attach the center of each rope to a metal O-ring using a cow hitch knot

Once all ropes are attached, drape over rain barrel

Begin with two ropes from adjacent cow hitch knots

Tie adjacent ropes together in a simple overhand knot

Continue all the way around the ring

Repeat below previous knot using adjacent ropes

Continue tying together adjacent ropes until the end of the ropes are reached

Cut off excess rope and burn ends to prevent fraying

Admire your new hay net...

And put to great use!
